## Objective

I seek challenging opportunities where I can fully use my skills for the success of the organization.

## Skills

- | C# | Asp. Net | MVC | HTML | OOPs Concept | CSS | JavaScript | SQL Server | MySQL | Database management

## Education

| Course / Degree | School / University | Grade / Score | Year |
|---|---|---|---|
| BCS (Computer science) | Shivaji university | 80 | 2021 |
| HSC | Jaysingpur college, jaysingpur | 78.60 | 2018 |
| SSC | Padmaraje school, shirol | 82.49 | 2016 |

## Experience

- **I Logic software solutions**      01/10/2023 - 31/03/2025
  Software engineer
  -Designed and implemented software patches and updates to resolve client-reported issues and enhance system functionality using **C#,Asp.Net,sql**.
  -Wrote and optimized complex SQL queries to extract, manipulate, and analyze data, improving the troubleshooting process and system performance.
  -Conducted root cause analysis for recurring technical problems and proposed preventive solutions.
  -Provide online and on-site support to resolve clients' queries and maintain the software

- **Cravita technologies india pvt Ltd**      01/01/2023 - 30/06/2023
  Jr. Software Developer
  -Developed responsive web pages using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
  -Created a desktop-based Java application that streamlined internal processes, improving overall productivity and user experience.
  -Tested and debugged code to identify bugs and implemented solutions to improve the functionality of applications.
  -Worked closely with senior developers to gain hands-on experience with modern web development frameworks and methodologies

## Projects

- **Medisoft - medical billing management**
  -Medisoft is a medical billing  management software widely used by healthcare providers .
  -It is designed to help medical offices manage patient information, billing processes,  insurance claims. Account reports. Medical reports and more
  -Designed and implemented software patches and updates to resolve client-reported issues and enhance system functionality using **C#,Asp.Net,sql server.**

- **E-cosmo - Hospital managment system**
  -software designed to streamline and automate hospital operations, enhancing efficiency and patient care.
  -It manages key areas like patient registration, appointment scheduling, billing, inventory, staff management,Account reports.and more
  -Designed and implemented software patches and updates to resolve client-reported issues and enhance system functionality using **C#,Asp.Net,sql server.**

- **Food Quality Monitoring System**
  -A Food Quality Monitoring System ensures food safety by tracking and analyzing various parameters.
  -My role in this project is to display food freshness, temperature, humidity, and light data from the **ESP32 microcontroller** on a webpage.
  -I created a responsive webpage to display data using **HTML, CSS, JavaScript, Bootstrap, JSON Database and GitHub.**

- **E-farming portal**
  The E-Farming portal is a web application that allows farmers to sell their agricultural products through a website.
  -This is my final year college project, which we are creating as a group using the **C#** programming language.

- **Library management**
  I completed a library management project during my internship. This project improved the efficiency of library operations using **Java, spring boot, MySQL**

## Personal Details

- GitHub    :   https://github.com/EmbedCode-Tech
- Portfolio :   https://embedcode-tech.github.io/myportfolio/#

## Course

- **EDGE - JAVA Fortune cloude technology, pune (Date- 01-07-2022 to 31-12-2022)**
  -Gained proficiency in core Java concepts, including object-oriented programming, exception handling, and data structures.
  -Developed hands-on experience in building applications using Java frameworks and tools.
  -Also learn basic about other programing language like **HTML, CSS, SQL, JavaScript, ASP.Net**
